FROM THE DIRECTOR

This year, Project P.L.A.Y. chose two recycling projects to incorporate in the show.

The first project was to recycle bottles and metals and create bottle trees. Thank you to Diesha Taylor and the Winston Louisville Vocational Center for the bottle trees and to the Traweeks for painting and wiring the bottles. The sun and moon were also made with recycled metal.

The second project was to make the costumes for the show out of recycled t-shirts. A special thanks goes to the costume crew (including Carole, Diane, Lois, Tracey) for creating the costumes.

Thanks to the parents who let SCT P.L.A.Y. with such a wonderful group of talented children. Thank you also for all of your patience, sacrifice, encouragement, support, and love. You, as parents (grandparents and siblings included) are shining examples of the community that makes SCT proud.

MJ

We strive to keep you looking your best!
